

ABOUT

I am a passionate CSE student with a flair for web design and a knack for programming. Over the past two years, I've honed my skills as a junior web developer at Sohok IT. My journey has been marked by exciting achievements, including being a runner-up in the SZPC Programming Contest.

When I'm not coding, you'll find me exploring new technologies, experimenting with creative designs, and sipping copious amounts of coffee. I thrive on challenges and am always eager to learn and grow.
